

### **ICFAI University Jharkhand conducted online examination**

All of us should be proud that for the first time, mid semester examination (MBA program) was conducted online successfully at ICFAI University Jharkhand. It is the first time that it was done by any ICFAI University.

It is beneficial for the students as they get the feedback and results immediately. As the questions and answer options are jumbled, it ensures integrity. It saves the trouble of evaluation of answer papers by the faculty members.

All the students who appeared in this online examination were feeling happy and said that all our further examination will conduct through online.
