

Social Outreach Program Remedial Class – September 25, 2017

With respect to the Social Outreach Program for the neighborhood villagers and young school Children, ICFAI University has made an endeavour to conduct classes for the neighborhood students. Under this program the IUJ recently organized a Social Outreach Program on September 25, 2017 for various school children studying at several Government Lower and Higher Primary Schools located in the vicinity. As part of this social outreach initiative to promote education awareness among underprivileged school children, the faculty has been conducting doubt clearing classes for students in Physics, Maths and Spoken English.

The programme started with the registration of students who enrolled themselves in various courses. Prof. Arvind Kumar, Assistant Dean, IUJ started the session by giving a brief introduction about the social initiatives of the University. He highlighted the importance of education in the upliftment of the society. The program was then addressed by the Registrar Dr. B.M Singh, who focused on the importance of education and health awareness among children. He shared the motivational and inspirational stories of various legendary persons who have broken all the barriers and achieved a name for themselves. He said that one should look up to these great leaders as a source of inspiration. He further added that the outreach activities will help to raise awareness, aspirations and achievement for higher education amongst children of the villages around the University.

The Village Mukhiya Mr. Mukesh Bhagat was also present in the program. He thanked the ICFAI University for this noble social initiative and ensured his full cooperation for this cause. The vote of thanks was given by Prof. Sumit Sinha who thanked all the officials, dignitaries and professors for encouraging the students and also for their active cooperation to make the program successful.
