Assistant Professor

Dr. Rajesh Kumar Prasad
Assistant Professor

It is immense pleasure that we present the second edition of monthly e- Newsletter e-‘Palaash’ of the month November 2019. This e-newsletter mirrors the IU Jharkhand-its vision and mission and highlights events, activities, academic prowess and achievements. It is the efficiency of our students and staff that so many activities of different flavours keep taking place and yet the schedules and daily activities do not get disturbed. The university celebrated its first convocation on 5th November 2019 followed by Alumni Get together. The University staff members and students participated enthusiastically to make the first convocation a grand success. Adding further flavor, the university also awarded Gold and Silver medals to the toppers of different programs to motivate and inculcate the junior batches to work hard to get success in life. This convocation itself is a proof of hard work, devotion to quality, dedication of our students, teachers and staff and vision of our management, which is responsible for this notable achievement. At this point we are sure that each student has different dreams and the University is putting all efforts to make their dream a reality. This moment recall the quote given by Hon’ble Former President of india Dr. APJ Abdul Kalam.

*“When you wish upon a star,
Makes no difference who you are,
Anything your heart desires,
Will come to you?”*

The need for modern and cutting edge technology such as ‘Artificial intelligence’ (AI) will transform our lives in the coming future. The question is: will it be for better or for worse? At IU Jharkhand, we are working hard with partners across the world to ensure the trusted, safe and inclusive development of AI technologies and their equitable access to their benefits. AI is being used for education, healthcare, space technology etc. On behalf of the ICFAI Community, I am glad to welcome our experienced new faculty members in the Science and Technology department and we look forward to work with them for taking ICFAI further to new heights of success.

Happy Reading!!!!
