Press Release

New Attendance System implemented at ICFAI University

Ranchi
29th Jan 2019

A new web-enabled attendance system was implemented at ICFAI University, Jharkhand during the current semester, which commenced in early January 2019. It saves time for faculty members and students, besides providing useful Management Reports quickly.

While the bio-metric attendance system, installed at the University gives the details of the students that came inside the campus in the morning, the web-based attendance taken by all the faculty members using their Smart Phones, at the beginning of the session, gives information on the attendance in the particular class. Every day afternoon, the system gives a list of students that are absent for the day . An automatic SMS alert is sent in Hindi to the parents of the concerned student. In addition, an Automated Voice Call is also made to the concerned parent, conveying the same message.

Commenting on the new system, Prof ORS Rao, Vice-Chancellor of the University said, “Regular attendance of the students in the class is essential to impart Quality Education. As a Values-based University, we are keen to alert the parents on the absence of their children so that they can take corrective action”. “We are happy that we have been receiving calls of appreciation from some parents on the individual attention that is taken by the University with regard to the students”, added Prof Rao.
