

Certificate Program
Foundation Course on
Digital Transformation of Business
(Blended Mode)

The ICFAI University, Jharkhand: The Institute of Chartered Financial Analysts of India University, Jharkhand popularly known as The ICFAI University, Jharkhand was established under sub-Section (2) of Section 4 of the Institute of Chartered Financial Analysts of India University Act, 2006 (Jharkhand Act 08, 2007). The University is recognized by UGC under section 2(f) of UGC Act, 1956 and is empowered by UGC to award degrees under Section 22 of UGC Act, 1956. The University offers a range of Under-Graduate, Post-Graduate and Doctoral Programs in Engineering, IT, Law and Management disciplines.

The Program: Information Technology (IT) is fast changing the world around us. It has now entered and transformed the business environment. So, it is imperative for every individual to upgrade themselves to equip with the growing importance of digital expansion and transformation. This certificate program will provide an understanding of IT-enabled changes in the business environment, and provide an insightful platform to the executives from corporate to leverage this to create values and win competitive advantages.

Benefits: An article in McKinsey very well reflects that; with the acceleration in digital, the demands on technology—for speed, flexibility, reliability, security, and value—have radically increased. According to a Markets and Markets study, the global cloud computing industry expects to grow from \$371.4 billion in 2020 to \$832.1 billion by 2025, making cloud computing one of the fastest-growing employment opportunities. IDC (International Data Corporation) predicts that the AI market will break the \$500 billion mark by 2024, with a five-year compound annual growth rate (CAGR) of 17.5 percent and total revenues reaching an impressive \$554.3 billion.

This program provides the participants an overview of the emerging digital technologies and equips them with the skills to face and apply them in their areas of improvement. The students from the various educational institutes and the executives from the corporate world will upgrade their digital skills by learning various transformational tools from the business. This will also focus on the industry impacts of technological

innovation during competition by exploring innovative and practicing business models in the high-tech industry such as Google, Apple and Face book etc.

What will the Participants Learn?

- Key drivers of Digital Transformation in business
- Various IT enabled tools and their role to manage business environment
