About My Business
ICFAI UNIVERSITY JHARKHAND
Platform for Special Kids
We have seen kinematics in games that work on motion sensor technology. But, using it to educate the kids is something new and fresh.
With movement-based learning, the kids who need special education can get extra benefits.
Bundling Kinesthetics with adaptive learning will be great for kids. Especially for those with conditions like dyslexia, autism, and ADHD.
This is one of the most important and lucrative education startup ideas.
