## From the VC's Desk

*"In the last few months, Indian Economy has been going through a major structural transition, wherein traditional sectors are giving way to emerging sectors, which are technology driven. Competencies needed to work in these new sectors are different. Besides, as there has been significant slowdown of the economy, recruitment, particularly for fresher's, also slowed down. In this competitive and challenging job market, our graduating students must be abreast with the changing job trends, emerging job opportunities and how they should equip themselves so that they are successful. In view of this, it was decided by our university to launch this newsletter, iNowkri, to serve as a continuous communication channel with our students. I request all our students to make the best use of it."*
