

## The ICFAI University, Jharkhand

ICFAI University, Jharkhand is part of the ICFAI Group, known for its quality of education and ethics. The University was established as per the Jharkhand Government Act and the University is empowered to award degrees, as per Sec 22 of UGC Act, 1956. The University is committed to develop a new cadre of professionals, with a high level of competence and deep sense of ethics and commitment to the code of professional conduct. The ICFAI University, Jharkhand has undertaken the challenge of moulding students with different backgrounds by providing them Quality Higher Education, which includes not only sound knowledge of the subject but also hands-on professional skills and soft skills, so as to make them not merely employable but successful in their careers. At the same time, Job Market, particularly for fresh graduates has been undergoing a paradigm shift, in terms of the profiles of the Recruiting Companies as well as the Roles. It is in this context that the University felt the need to communicate to the students on a continuous basis, the changing trends in the Job Market and prepare the students accordingly. *i-Nowkri* News Letter is intended to fulfill the need by way of sharing the Job Market trends, Information on Campus Placements as well as Off-Campus placement opportunities (both in Private and Government Sectors) and advice to the students on how to prepare themselves to face the entire selection process. Besides, it serves as a communication channel for experience sharing by the students that successfully cracked the placement interviews.

"In the last few months, Indian Economy has been going through a major structural transition, wherein traditional sectors are giving way to emerging sectors, which are technology driven. Competencies needed to work in these new sectors are different. Besides, as there has been significant slowdown of the economy, recruitment, particularly for fresher's, also slowed down. In this competitive and challenging job market, our graduating students must be abreast with the changing job trends, emerging job opportunities and how they should equip themselves so that they are successful. In view of this, it was decided by our university to launch this newsletter, *i-Nowkri*, to serve as a continuous communication channel with our students. I request all our students to make the best use of it."

Any feedback and suggestions for improvement may be sent to [placements@ujharkhand.edu.in](mailto:placements@ujharkhand.edu.in)  
Best wishes for your professional success.

#### **"A Step towards Career Design and Job Placement Support"**

Amid an increasingly demanding economic and business climate, job placement support has become an important duty for universities. ICFAI University, Jharkhand makes efforts toward career design and job placement support from the early stages of students' education, based on a clear understanding of the types of job candidates who are sought by employers, and who are in step with times. The university provides students with the information needed in the search for employment, internship opportunities including company profiles, job listings all of which can be used for researching prospective employers, ready to move ahead professionally.

## "Job Market News Updates"

# Sachin Bansal to put \$400m in banking biz

## Plans To Use Most Of Flipkart Sale Proceeds, Wants Smartphone To Be Navi Bank's Focus

Digbijay Mishra & Madhav Chanchani | TNN

**Bengaluru:** Flipkart co-founder Sachin Bansal has said that he will deploy all the proceeds from the sale of his stake in the e-commerce player into his financial services venture Navi Techno, which has applied for a universal banking licence with the RBI. The financial services firm has sought the licence through a step-down subsidiary.

Bansal could likely invest \$400-450 million in the new venture, according to estimates, which will likely make it one of the biggest equity infusions by a promoter into a new financial services venture. "I am putting almost all of mine (money) — that is going to happen in the next few days or weeks, whatever is left after Ola investment. All eggs in one basket," said Bansal in an interview to TOI, while not commenting on exact numbers. The total amount is likely to be invested in multiple tranches.

The 38-year-old IIT-Delhi graduate, who had started Flipkart in 2007, is also adding more heft to his new venture by roping in former RBI director and ICICI Bank top executive Nachiket Mor, who was till recently head of Bill & Melinda Gates Foundation in India. He has also roped in as an adviser Paresh Sukthankar, the former deputy to HDFC Bank CEO Aditya Puri, who had worked at India's largest private sector lender since its inception in 1994.

Bansal had agreed to sell his over 5% stake in Flipkart to US retail giant Walmart in 2018 for about \$1 billion, out of which he will get \$750-800 million after tax. Out of this, Ban-

sal has invested \$300-350 million in companies like ride-hailing major Ola and electric bike maker Ather. He has also put some capital in treasury operations, including debt papers of companies like Piramal Enterprises.

According to Bansal, regulators are "very open to new ideas" and the reason why he has applied for a universal licence rather than a small finance bank is that he wants to operate across multiple sectors.

other way round with branches being the centre of focus, and mobile apps also crash at the start of the month, underlining how there is a gap in technology capability at big players. While Chaitanya will continue to focus on the lower end of the market, Bansal also plans to launch a new product under the Navi brand, which will focus on digital lending for the middle-class.

Bansal is also in the process of acquiring DHFL Insu-

### DOUBLING DOWN ON FINTECH

Since Sachin Bansal sold his \$1bn stake in Flipkart, he has...

- > Already infused over \$100m in microfinance co Chaitanya
- > Spent about \$40m for acquiring Essel Mutual Fund as well as DHFL

General Insurance

- > Invested \$100m in Ola
- > Pumped \$30m into e-scooter co Ather
- > Put about \$100m for treasury operations

"If you think like a consumer-tech company rather than a traditional financial services company you can solve some big problems," said Bansal. He added that for India to become a \$5-trillion economy the GDP-to-credit ratio has to improve to 100% from the current 57%.

Last year, Bansal had acquired microfinance company Chaitanya Rural Intermediation Development Services (CRIDS), whose subsidiary Chaitanya India Fin Credit (CIFCPL) has applied for the banking licence. While Bansal had acquired CRIDS in his personal capacity, he is in the process of moving the investment under Navi Technologies.

"We will keep the smartphone at the centre of consumer experience, rather than an add-on," Bansal said. He indicated that currently, it's the

finance and Essel Mutual Fund to develop plays in the insurance and asset management plays. Both deals are yet to receive regulatory approvals. Bansal said that Navi will raise additional capital from three-four outside investors, including World Bank arm IFC, which is investing \$90 million at a valuation of \$650-700 million, as TOI reported on January 10. In total, Bansal could be raising \$150-200 million from outside investors, according to two sources, though Bansal declined to comment on numbers.

"We are looking for people who bring that expertise (financial services). IFC is definitely one of those names. In the 1980s, they were the first investor in HDFC, not the bank but HDFC Ltd. They were investors in almost all the banks who got a licence," he added.

**Updates on Job Market Trends**

LinkedIn, in its recent report, unveiled the Top 15 Emerging Jobs in India for 2020. Block Chain Developer, Artificial Intelligence Specialist and Java Script Developer will be the top 3 roles in 2020. The report says that while India’s public sector is a large consumer of the technology, companies in the Banking, Financial Services and Insurance (BFSI) and Health care sectors are also looking to employ specialists. Among non-technical roles, it will be Digital Marketing Specialist and Lead Generation Specialist. For more details, please visit ...
