

ICFAI University, Jharkhand is part of the ICFAI Group, known for its quality of education and ethics. The University was established as per the Jharkhand Government Act and the University is empowered to award degrees, as per Sec 22 of UGC Act, 1956. The University is committed to develop a new cadre of professionals, with a high level of competence and deep sense of ethics and commitment to the code of professional conduct. The ICFAI University, Jharkhand has undertaken the challenge of moulding students with different backgrounds by providing them Quality Higher Education, which includes not only sound knowledge of the subject but also hands-on professional skills and soft skills, so as to make them not merely employable but successful in their careers. At the same time, Job Market, particularly for fresh graduates has been undergoing a paradigm shift, in terms of the profiles of the Recruiting Companies as well as the Roles. It is in this context that the University felt the need to communicate to the students on a continuous basis, the changing trends in the Job Market and prepare the students accordingly. *i-Nowkri* News Letter is intended to fulfill the need by way of sharing the Job Market trends, Information on Campus Placements as well as Off-Campus placement opportunities (both in Private and Government Sectors) and advice to the students on how to prepare themselves to face the entire selection process. Besides, it serves as a communication channel for experience sharing by the students that successfully cracked the placement interviews.

Highlights: In the Current Issue

- Competitive Exam Schedule
- In Campus Placement Opportunity
- Off Campus Placement Opportunity
- Job Opportunities in Government/Public Sector
- Job Market News/ Updates
- Students Selected in Campus Placement

Dear Readers,

It gives me immense pleasure to present before you the 11th issue of the *i-Nowkri* News Letter. We also extend a very warm regard and greetings to all our readers. The *i-Nowkri* News Letter continues to endeavor amongst students the upcoming job opportunities both in public and private sectors.

We are also delighted to share amongst our readers few news and updates about job market. In this issue, we are informing our students about competitive exam calendar for the higher studies. Upcoming campus placement opportunities have also been highlighted integrating both in and off campus in this issue of *i-Nowkri* News Letter.

The *i-Nowkri* News Letter hopes that you enjoy the fruits of our labor and that our efforts can help reshape your career. In the spirit of continuous improvement, any constructive input on streamlining our processes is very welcome.

Dr. Manish Kumar
Assistant Professor, ICFAI University
Jharkhand

About *i-Nowkri*

“A Step towards Career Design and Job Placement Support”

Amid an increasingly demanding economic and business climate, job placement support has become an important duty for universities. ICFAI University, Jharkhand makes efforts toward career design and job placement support from the early stages of students' education, based on a clear understanding of the types of job candidates who are sought by employers, and who are in step with times. The university provides students with the information needed in the search for employment, internship opportunities including company profiles, job listings all of which can be used for researching prospective employers, ready to move ahead professionally.

7 Ways to Prepare for Interviews

There are many ways to prepare for an interview, including:

1. Use a checklist
2. Revise interview questions & prepare answers
3. Research the company and the interviewer
4. Review your own resume
5. Take a psychometric assessment
6. Mock interviews with friends and family
7. Professional Interview Coaching

There will be obstacles. There will be doubters. There will be mistakes. But with hard work, there are no limits.

Job Opportunities in Government/Public

"Job Market News/ Updates"

India's 5G rollout to create thousands of tech, software jobs

Habeeba.Salim@timesgroup.com

The Indian telecom sector may be passing through a chaotic phase now, but a 5G rollout will create several job opportunities. 5G, the fifth-generation spectrum wave, is not an incremental upgrade, but a replacement technology that will bring in many more devices on board, making IoT realise its true potential.

Talent solutions company Xpheno's report on 5G in India lists a host of engineering as well as software roles that will be created as part of the rollout. India hopes to begin the pilot 5G phase by October.

Xpheno pegs the initial 5G talent demand in India to be over 1,50,000. Roles can be divided into technical and software. "The first players would be telecom engineers who would work in the core 5G network to set up the base infrastructure," says Xpheno CTO Prasadh M S.

For a software engineer, there will be opportunities because 5G will create a lot of data for businesses. Which means that machine-learning algorithms are going to be an important requirement. 5G will require its own security protocols. "Machine learning, big data experts with knowledge of node.js (a JavaScript runtime environment that works well with 5G and IoT devices), cyber security experts updated on latest 5G protocols, those up-to-date on GPS technology, IoT specialists and

AREAS OF LEARNING

5G Technology

Engineers will need to understand how computing intelligence embedded in 5G networks enable wider data bandwidth and less latency

5G Planning

5G use case identification, coverage analysis for 5G, site planning, traffic modelling, 5G simulation parameters

Vo5G

Voice over 5G refers to the voice & video communication over 5G

5G - Core Network

The 5G core functions as the anchor point for multiple access technologies

5G Security

Mastering the threat landscape of 5G will be a sought after skill

5G Migration

Migration from evolved packet core (EPC) that powers 4G LTE to 5GC is key to 5G rollout

5G IoT

Methods and architecture to exploit the always-on nature and low latency of 5G to establish a comprehensive IoT ecosystem

5G System & Application Design

Development of services and utilities powered by 5G

embedded electronics engineers — all can find an entry into 5G," says Gaurav Vohra, CEO of Jigsaw Academy.

Skills judged in Group Discussion

1. Interactive skills
2. Leadership skills
3. Flexibility
4. Creativity
5. Initiation
6. Awareness
7. Confidence

ICFAI[®]
UNIVERSITY
