

Research and Academics

ICFAI University Jharkhand well known for nurturing innovation and creativity, celebrated National Science Day on 27.02.2026 under the aegis of the Institution's Innovation Council (IIC).

The event highlighted the importance of scientific thinking and innovation in today's rapidly evolving world. Students and faculty actively participated in various activities, showcasing their ideas and research aptitude. It provided a platform to encourage curiosity, experimentation, and problem-solving skills among young minds. The celebration reflected the university's commitment to promoting a culture of research, innovation, and academic excellence.

- Model Presentation
- Poster Presentation
- Group Discussion
- Innovative Idea Presentation

DISCUSSION THEMES

- Climate Change
- India's Space Mission & Future Prospects
- Artificial Intelligence: Boon or Threat to Humanity
- Robotics in Industrial Automation
- Electric Vehicle

Organised by ICFAI Tech School

Students enthusiastically presented innovative models demonstrating practical applications of scientific concepts. Their projects reflected creativity, critical thinking, and a strong understanding of real-world challenges. The presentations provided an excellent platform for students to showcase their ideas and technical skills. Such initiatives encourage hands-on learning and inspire future innovations among young learners.

The event beautifully reflected the spirit of scientific inquiry, innovation, and experiential learning. The B.Tech and Diploma students of ICFAI Tech School showcased wonderful and thoughtfully designed model presentations demonstrating practical solutions to real-world challenges. Their projects highlighted creativity, teamwork, analytical thinking, and technological application.
